Percussion

Step 1
Place one piece of packing tape halfway over the tube.

Step 2
Place another piece of packing tape over the other half of the tube.

Step 3
Place a piece of packing tape crossways over the center of the tube.

Step 4
Test the sound of the drum. Make sure there are no holes in the drum head.

Step 5
Wrap tape around the edge of the tube to secure the “drum head” in place.

Step 6
Make a bunch of drums and bang away!
